

LED Panel

1200 x 600

Product Description

Our fantastic, super thin, LED Panel is a perfect replacement for fluorescent office lighting, offering a bright even light. Capable of replacing 600x600 fluorescent tiles or even 1200x600 fluorescent tiles. By switching your office lighting to our LED panel you will reduce the heat generated in the office and provide flicker free lighting for your staff. This creates a better working environment, reducing headaches and increasing productivity.

Applications: Offices, Hotels, Hospital & Clinical Lighting, Schools & Retail Environments

Protection & Resistance

IP20 Rated

Easy to clean, wipeable surface

Design Features

5 Year Warranty

Aluminium Housing
